Keynote Template Help File

Thank You For Purchasing Me

**change picture :**

- dont forget after input your pictures into the picture placeholder just click "image" and replace your picture. click on your pictures you have replace, and click "send to back" because some of the slides contain transparent rectangle.

- some shapes and pictures use shadow techniques. you can set it yourself on style.

**file format :**

- file formats is keynote

font used in this template :

- yeseva one (header)
- open sans (body)
