How to edit the template

The best way to work on our templates is:

- 1.- Open any file included in our package
- 2.- Edit the slides that suit with your project
- 3.- Delete slides that you don't need it
- 4.- Done

How to edit footer

follow these easy steps.

- View Tab
- Click Slide Master
- Scroll up to the first slide then edit or delete the footer also you will find the page number if you don't want just delete it
- Close Master

How to install fonts?

- Double click the unzipped font file and Font Book will open a preview of the font.
- Click "Install Font" at the bottom of the preview.
