

# BASIC HELP GOOGLE SLIDES PRESENTATION

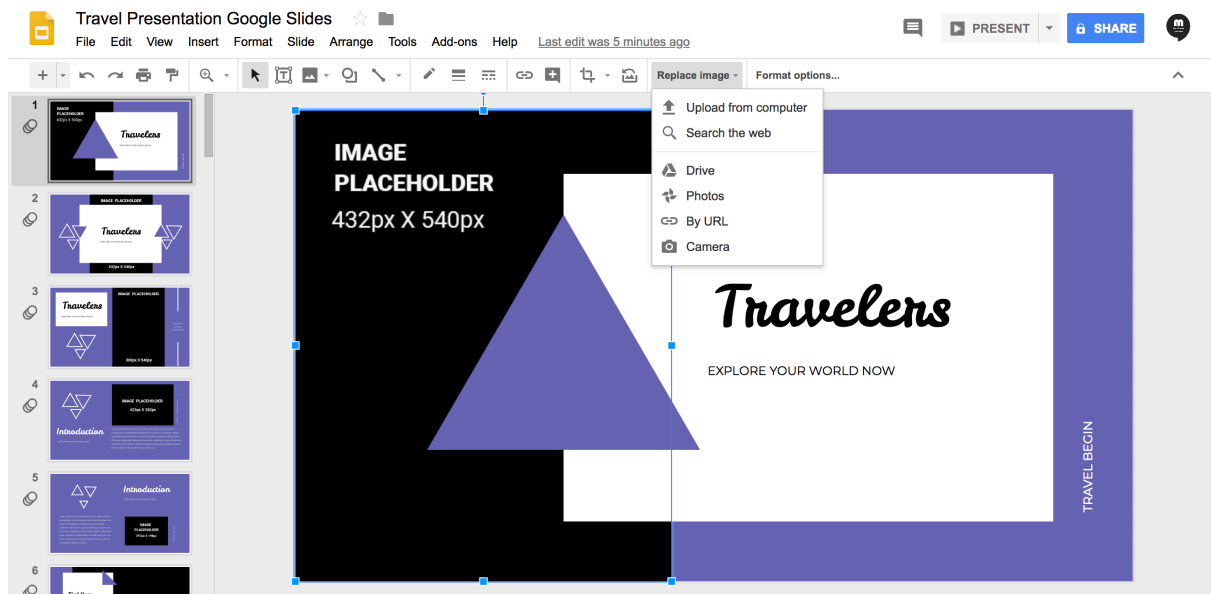

Hi There,

Thanks for downloading our items. Here some basic instruction to use this items

First of all you must upload this items to google drive and open google slides presentation. This items can open with Microsoft office powerpoint but maybe will not work properly.

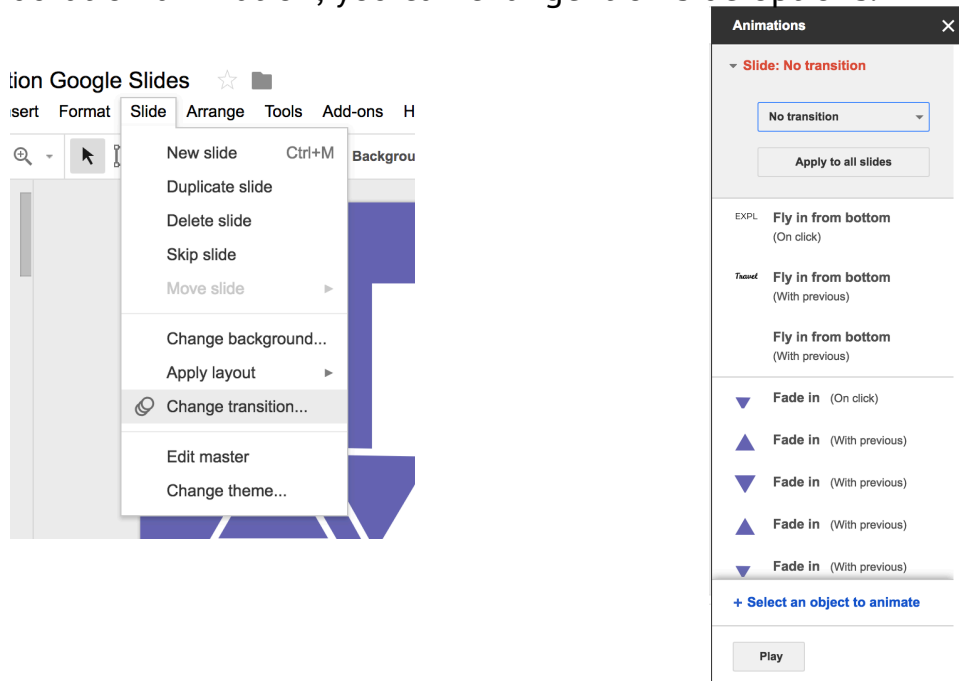

## 1. Change Images

To change images go to images section. Click Images Area > go to Tab Replace Image > Change Picture

## 2. Change Animation

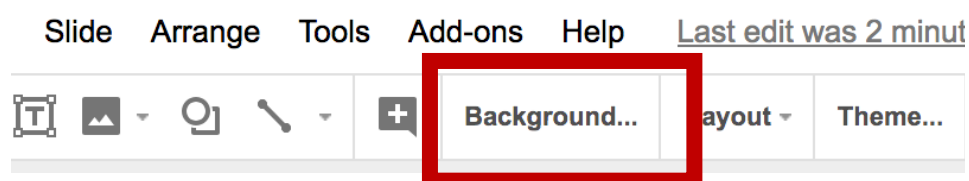

To change Animation , click section text or images . Go to tab menu Slide > Change Animation . If you want to re-order animation or change duration animation, you can change it on side options.

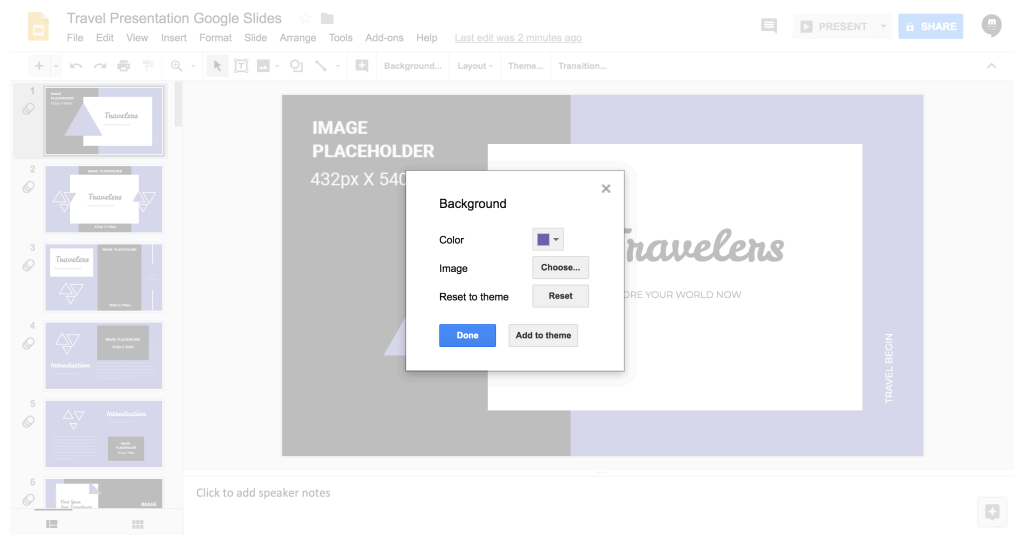

Add Animation select object and click + Button  
Select animation.

## 3. Change Background

To change background click on background area. Choose menu Designs > Go to menu list and click Format Background. Choose what you want solid ,Gradient or picture background type.

## 4. Change Font Family

To change fonts family you must install font list in fonts usage file. After that you can click section text and choose font family in tab home.

Thank you for downloading this items.
