### FAQ

**Q: How to edit static element (e.g page number, header, footer, whatever that can't be edited in regular slide) ?**

A: Those stuff are located in the 'Master Slide', please follow instruction bellow..

for Keynote Template : Simply double-click the object, then you'll be directed to **'Master Slide'**

for Powerpoint Template : on the top menu choose **'View' > 'Master' > 'Slide Master'**

for Google Slide Template : on the top menu choose 'View' > 'Theme Builder'

**Q: How to edit Photos ?**

A: You can easily drag and drop to image placeholder.

or for some cases you need to **'right click on the photo'** then choose **'change picture'**

**Q: Where's the image / stock photos in the preview? i don't see them in the downloaded package.**

A: Due to Envato rules, we can NOT add them in the downloadable assets. But most of them i get from Pexels.com, Unsplash.com, Adobe Stock, or Shutterstock.com
