How to edit

When you open the file, you will see that it is correctly organized by folders and layers

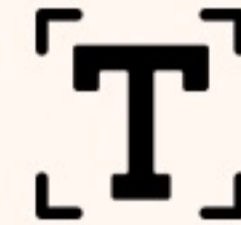

Designs

- Go to LAYERS tab
- Select the 'Place your design here' layer
- Double click to open the Smart Object
- Insert your design into this new file and save when you're done
- Your design will automatically adapt to the object

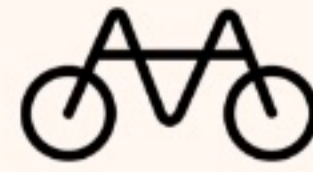

Colors

- Go to LAYERS tab
- Expand the 'Color Settings' folder
- Select layer you want to change the color
- Double click the color box and choose your color or move the sliders left or right if it's a Hue/Saturation Adjustment Layer

Texts (if contains editable text)

- Go to LAYERS tab
- Expand the 'TEXT' folder
- Select the text layer you want to edit
- Choose Text tool
- Double click on the text you want to edit and type your own text
