FONTS

THE MOST IMPORTANT THING

Before you open the presentation file be sure that you have installed the fonts

Fonts used:

Lato

You can download it here:

Lato: <http://www.fontsquirrel.com/fonts/lato>

How to Install:

Download the fonts, unzip.

Copy font files to your font folder or right-click on the font file you wish to install and select **Install**.

Then close PowerPoint and reboot your computer.

Also you can use: <http://www.wikihow.com/Install-Fonts-on-Your-PC>

Font is free for use in commercial projects.

PHOTOS

All photos of preview aren't included in the files.

The links to the photos are below:

<https://www.pexels.com/>

How to CHANGE the photos

Just click on the small icon in the center of the holder and choose an image on your computer.

How to change a picture on slides with backgrounds

Click on the small icon in center of the holder and choose an image on the computer. When you added the image send it to back (Right click on the image > Send to Back).

ICONS

All icons used in the presentation are as a shape. It's easily recolor and resize.
