Presentation Help / FAQ

Install font?

All fonts are free for use in commercial projects!

OS WINDOWS:

Extract the files you have downloaded.

Under Windows 8/7/Vista Select the font files (.ttf, .otf or .fon) then Right-click > Install

Under any version of Windows Place the font files (.ttf, .otf or .fon) into the **Fonts** folder, usually C:\Windows\Fonts

OS MAC:

Under Mac OS X 10.3 or above (including the FontBook) Double-click the font file > "Install font" button at the bottom of the preview.

Under any version of Mac OS X: Put the files into **/Library/Fonts** (for all users), or into **/Users/Your_username/Library/Fonts** (for you only).

Under Mac OS 9 or earlier: Drag the fonts suitcases into the **System** folder. The system will propose you to add them to the Fonts folder.

Icon's color, size, place?

Font icon is ready & easy (Copy to Paste)

Be sure that you are correctly installed "FontAwesome" & "Simple Line Icons" font and other. Those icons are like text, you can change their color as text, their size as text, their place as text etc.

Presentation Help / FAQ

What is image “placeholder” and how works?

For more easy use I can include “Placeholders” in some slides. This is area that you can input image, video, graphic or other element only with one click. In this case.

How can i embed fonts in my presentation?

If you must go and present our work at another computer system, necessarily do this:
Go to **File** tab -> **Options** -> **Save**, and select “**Embed fonts in the file**” and “**Embed all characters**”
