FAQ

Q: How to edit static element (e.g page number, header, footer, whatever that can't be edited in regular slide) ?

A: Those stuff are located in the 'Master Slide', please follow instruction bellow..

*for Keynote Template : Simply double-click the object, then you'll be directed to '**Master Slide**'*

*for Powerpoint Template : on the top menu choose '**View**' > '**Master**' > '**Slide Master**'*

for Google Slide Template : on the top menu choose 'View' > 'Theme Builder'

Q: How to edit Photos ?

A: You can easily drag and drop to image placeholder.

*or for some cases you need to '**right click on the photo**' then choose '**change picture**'*

Q: Where's the image / stock photos in the preview? i don't see them in the downloaded package.

A: Due to Envato rules, we can NOT add them in the downloadable assets.
